

# BALLARD CENTER WISH LIST

The Ballard Center partners with families to achieve stability through early childhood education and needs-based services.

Surviving Coronavirus pandemic: To assure the safety of our staff and the families we serve, Ballard Center is closing the Early Childhood Education Center in wake of COVID-19 concerns.

There is no higher priority at Ballard Center than the health and safety of our children, families and clients. We know these are stressful times and realize that many of our clients live paycheck to paycheck. We are doing the best we can to address the challenges our families are facing and are making every effort to continue offering our wrap-around services.

To assure our kids' bellies are full, our pantry is limited to providing food, formula, and diapers which we will be delivering to those in need.

If you are able to share anything you might have in abundance, it would be much appreciated.

Thank you for your support and assisting us in navigating through these challenging circumstances.
